

Action	Pictorial confirmation	Response
<p>Press and hold the button on the new LTX. Watch the LED while doing this.</p>		<p>After approximately 3 seconds the LED will go off.</p>
<p>Keep holding the new LTX button and place the old remote that must be copied head to head with the new LTX</p>		<p>New LTX LED remains off while still pressing the button.</p>
<p>While still holding the new LTX button, press and hold the old remote button to be copied. Watch the LED again.</p>		<p>The LED on the new LTX begins flashing to show it has seen and learnt the code.</p>
<p>Release both the old and new remote buttons.</p>		<p>The LTX button is now a duplicate of the old remote button and will activate any receiver that old button is programmed into.</p>
<p>Repeat for additional buttons or remote transmitters.</p>
